**LDW - Source Control - Discussion Topics - 5/31/06**

**Ecology Source Control Meetings (Bruce)**

LDW Source Control Work Group - 06/06/06 - 9:30 to 11:00 - Attendees: LDWG members & agencies

LDW Source Control Focus Group - 06/06/06 - 12:30 to 3:00 - Attendees: LDWG members, agencies, & stakeholders

[ DRCC Question from last meeting on 4/11/06: Please provide an update on where WTD is headed with regards to CSO treatment technologies such as ballasted flocculation. Is this technology transferable to stormwater? ]

**Ecology Phthalate Working Group Status (Noel)**

Joint DOE/EPA/Seattle/Tacoma/KC effort to address regulatory issues ]

**Duwamish/Diagonal SD/CSO**

IW Sampling of Industrial Dischargers for Phthalates

< DATA TOGETHER BY EOY

**Sub-Basin Study**

Bruce T. working on conceptual plan of study for internal discussion

After internal review, discuss w/SPU

Input from City of Tacoma? (Re: Thea-Foss sediment recontamination)

Input from stakeholders? (Re: previous commitment)

- MAY NEED COMMERCIAL AREA

[ Followup with stakeholders per Don's direction (Jennifer/Jeff)

Briefing of Executive/Council on phthalates still needed?

Briefing of DRCC on recontamination of D/D cap

**Slip 4**

05/11/06 Source Control Meeting at KCIA w/Boeing, SCL, SPU, KCIA, KC/WTD, Ecology, EPA

Ecology Goal: To get parties to commit to deadlines for source control actions (e.g., soil removal near GTSP, etc.)

Deadlines to be incorporated into new table in the executive summary portion of final SCAP for Slip 4.

KCIA Commitments:

Complete source tracing at KCIA - June to September 2006 ✓

Clean out catch basins and lines at KCIA (if required) - August to November 2006

Test KCIA for PCB caulk - September to October 2006

(A) THAT WE  
NEED TO DO  
IF WE STEP  
IN

King County Industrial Waste (IW) sampling of stormwater vault sediment at KCIA.

06/01/06: IW field reconnaissance of KCIA sample sites.

06/06/06 to 06/08/06: IW sampling at KCIA.

mid- to late-June: PCB results received

mid- to late-July: Results received for phthalates, PAH, metals, total petroleum hydrocarbons, and total organic carbon.
